

BIG FLEET TO WELCOME WARSHIPS FROM EUROPE

About a dozen battleships, locked up in the Yorktown-Virginia harbor since the war was begun, will go to New York to welcome home the battleships and destroyers due about December 23. Secretary Daniels announced this yesterday adding that some battle cruisers and a number of destroyers and submarine chasers will remain abroad for the present.

Let the noise of quarters and dollars pouring into the U. S. Treasury suffice to the world that this country is united. Buy War Savings Bonds.

SAYS COLD WEATHER BRINGS RETURN OF INFLUENZA

Public Must Be Careful To Avoid a Second Epidemic. Easier To Prevent Than Cure. What To Do?

Encouraging reports of the fewer cases of influenza in this vicinity should not allow us to relax our警惕。We believe that the danger is all over," says a well-known authority. With the coming of cold weather we are apt to be more liable to this malignant epidemic, and its seriousness will depend on the extent of the precautions taken by the public to prevent infection.

The air is full of influenza germs which you may be constantly breathing them into your nose and throat until their dangers may be avoided by the use of masks. You yourself are already immune to infection if you destroy the germ before it actually reaches your body.

During the previous epidemic which hit Washington so hard, most effective results were obtained by many through the simple breathing exercise consisting of a bottle of medicated air of Oil of Hyssop, probably no better, safer or more reliable precaution against influenza. Consult a colds bronchitis specialist. When he can't be had at the nearest drug store and get a complete nose out fit consisting of a bottle of oil of hyssop and a pocket hard rubber inhaling device into which a few drops of the oil are poured.

Carry an inhaler with you during the day and each half hour or so put it in your mouth and draw deep breaths of its pure healing germicidal air into the passages of your throat and nose to destroy the germs that may have found lodgement there. This simple prediction may save you a serious illness and the expense of medical visits.

It is pleasant to use and not all expensive, as the inhaler will last a lifetime and further supplies will be easily obtained.

The Oil of Hyssop can be had at the drug store for a few cents.

Hundreds of people in this vicinity are Hyssop in the way during the present crisis and the danger they should not neglect it now for no danger is by no means over. Sold O'Donnell's Drug Stores.
